CLOSED BATTLE LISTS

CLOSED BATTLE LISTS (CBL)

In official tournaments closed army lists are established as officially valid for the ITS. Each Closed Battle List (CBL) possesses different versions of Army Lists, so the players can have options to choose the two Army Lists they are going to use in the tournament. If the players decide to participate in an ITS tournament with a Closed Battle List they must inform to the organizer which two CBL Army Lists they will play. Also, they can only play with Army Lists from that CBL.

SVALARHEIMA BLIZZARD-6 FORCE

The uncovering of the Shasvastii infiltration network through the Wotan Jump Gate to Svalarheima using modified Nomad freighters triggered a level-3, yellow alert. The High Command of the Svalarheima Winter Force, the PanOceanian planetary military force on this world, designated eight specialized combat groups tasked with tracking and neutralizing the alien activity in their territories. Mixed specialized units trained ad hoc for this particular purpose formed these groups. The call sign for each group was "Blizzard" followed by a number from one to eight.

One of the most effective groups in this task was the Blizzard-6 force. They found and neutralized an advance party of the Onyx Contact Force trying to establish a beachhead in the inhospitable interior territories of Trollhättan. After the success of this operation, and as a result of the B4ckd00r file crisis, Blizzard-6 was given the dual task of finding the ALIVE contact on Svalarheima and the files scattered across this planet.

In order to carry out this mission, the Svalarheima command assigned Camille Litvack, a DataTracker from the Indigo unit, to the Blizzard-6 force. However, due to the complexity of the task, and thanks to the carte blanche given to the Blizzard forces, Litvack decided to use unconventional methods. For a tracking operation in a closed area of the city of Ægir, the veteran DataTracker hired the famous bounty hunter Lucien Sforza and Saito Tōgan, a mercenary ninja who had just finished a job in Shidong City. The intervention of these two freelance assets was decisive to operational success, and silenced the critical voices of the Svalarheima High Command who were calling for the disbanding of Blizzard-6. The achievements of the operation in Ægir allowed the Blizzard-6 force to continue operating without restrictions.
